**Ahoy Everyone and welcome to 2024!**

This year marks our chapter's 20th anniversary and it's going to be a terrific classic boating season. Our chapter was officially chartered on April 30, 2004. We'll be celebrating our birthday on Sunday, April 28th with a luncheon/birthday party, so watch your email for further details. Save the date. Mark your calendars now.

The year is off to a good start. We organized a booth at the Milwaukee Boat Show and, as usual, we had plenty of volunteers step forward to set up, take down, and man the booth during the show. We gained new members, thrilled kids with toy boats they could build and decorate, and offered the public a chance to see some of our classics and learn about ACBS. Thank you volunteers. I want to especially recognize John Baumann and Wil Vidal who took the lead for the crew recruiting, organizing, and making our presentation top-notch. A special thank you to Eddie Rennpferd. He was at the show every day it was open. He's been doing this since 2017.

The chapter has an enthusiastic board and set of officers and they are working hard to once again present and promote a series of events across Wisconsin so that no matter where you live in our great state, you've got access to fun classic boating events. From Milwaukee, to the Northwoods, to Door County, you'll find events worth attending. Our Vice-Commodore, Mark Asbury, leads the Events Committee. Feel free to contact him anytime. As we publish our calendar and regular updates, make your plans and join the fun.

This birthday year sees the return of our quarterly newsletter, "at the Waterline". Wil Vidal, who edited "at the Waterline" in the past, has returned to the position. We're thrilled to have Wil setting the course again. "at the Waterline" is offered in two versions: on-line and hard copy.

So you've paid your dues. How do you get the most out of your membership in our chapter and ACBS? First of all, just join in. Don't ever feel bashful about attending an event or a meeting. Grab your name badge, bring a boat, volunteer to help out. The members of this chapter are a great group and you'll find them welcoming, helpful, and friendly. We were all new members once. We all once attended our first boat show. So join in...it's your chapter.

Second, take a good look at our events calendar. You'll find classic boating events taking place across the state. Each event has its own flavor focused on fun. None of the state events are seriously juried with pressure to win awards. Almost all of them do choose boats to recognize in some fashion, but the emphasis is on the fun of sharing our boats with each other and the public. And most of our events also offer the opportunity to get the boats out on the water. There are "pre-events" and day cruises or parades. It's more than just sitting at the dock or ashore with the boat on its trailer. So plan to attend an event or two- or more. If you look at the calendar, you'll see that we have a member listed who acts as the chapter's contact with the show. If you have questions, contact him or her.

Third, volunteer to help out. The chapter is only as strong as YOU! Everything we do is possible because members step forward to get the work done. So when you see an announcement of a meeting, plan to attend it. Most of the chapter-wide meetings are held via Zoom so that anyone, anywhere in the state can take part. The Events Committee has the most to do, so let Mark Asbury know if you can help out. If you like to write articles, contact Wil. Watch your email for calls for volunteers and then step forward to help with a show or an event. Be part of the fun.

Finally, if you ever have ideas, concerns, or questions about the chapter and its activities, give me a call or shoot me an email. I'd like to hear from you and together we can make GLACBS the best ACBS chapter in the country.

Milwaukee Boat Show  
 State Fair Park  
 January 19-21 & 24-28 2024

**SPECIAL THANK YOU** to **John Baumann** for making show reservation arrangements with **SHOWSPAN**, and making calls to get boats and made more calls and sent emails to get volunteers and organizing the entire event. **John Baumann** has been coordinating this effort since 2004, 20 years. John got 6 beautiful boats and 2 sail skiffs from All Hands Boatworks. He gathered 27+ volunteers to do setup, take down and work the booth for the nine day run. **Thank You John.**

Now a special thank you to our volunteers. Before Wednesday setup, **Bob Stoltz** and **Gary Rechcygl** went to the storage building and loaded up their trucks with show display items to take to the show for the Wednesday setup. Now for some volunteer stand outs! **Mark Asbury** brought his 1948 Correct Craft from Green Bay. That's 2 hours and 122 miles one way. Mark volunteered at the booth multiple days during the show.

**Eddie Rennpferd, since 2017 has been working The January Boat Show everyday it has been open.** Again, many of the Glacier Lake members showed up to volunteer multiple shifts and multiple days.

**SETUP & TAKE DOWN CREW**

John Baumann, Scott Bruesewitz, Howard Schneider, Jeff Allen, Gary Rechcygl, Eddie Rennpferd, Bob Stoltz, Judy Kearns, Ed Eisenmenger, Rich & Roberta Hegy, Mark and Corbin Asbury, Dan Johnson and Ed Eisenmenger

**VOLUNTEERS**

Many worked multiple shifts: John Baumann, Gayle Ritter, Bob Stoltz, Gary and Sue Rechcygl, Jane Larson, Jim and Janet Ruwaldt, Mark Walters, Jane Adams, Ed Eisenmenger, Mark and Corbin Ashbury, Roberta and Rich Hegy, Eddie Rennpferd, Gary Berg, Brian Kramer, Scott Bruesewitz, Jack Schneiberg, Eddie Rennpferd, David and Jaye Procknow, Bob Stoltz, Dan Holdmann, Howard and Donna Schneider, Mark Walters, Scott Bruesewitz, Amy Simonson, Rich & Roberta Hegy, Ed Eisenmenger, Jane Larson, Gary Berg, Brian Kramer, John Baas, Greg Gaitens Dan Schnick and Tom Neary.

"All Hands Boatworks" made 200 toy boats for young future vintage boaters.

**"NIKKO"  
1961 Arkansas Traveler "Frolic"  
Micki & Jim Reinardy of Mequon**

This 15' "Frolic" model was introduced in 1961. Nikko is equipped with a cloud white 1959 Kiekhaefer Mark 58AEL w/Mercury Super Thunderbolt Powerhead which is rated at 45 HP. The Mark 58AEL designates it as Electric Starting, Long Shaft with Alternator.

"NIKKO" was pulled from Micki's dad's garage in 2021. Nikko was a big part of Micki's family's summer recreation on Lake Winnebago from 1967- 1972. Needing some repairs, she was stored in an offsite garage and largely forgotten. With a few fiberglass patches in the hull, replacement of rotted floor boards, plus a new starter motor and magneto for the outboard, she is now a fun ride and eye-catching retro run-about for our family. We look forward to spending more time on the water with her and many cosmetic projects ahead.

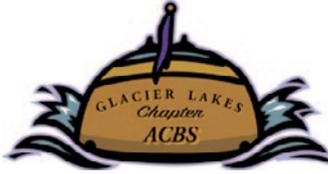

**15' SKUJACK (DUT-151G).** Same staunch and jaunty hull as the Frolic—same exciting Flite Deck—same brilliant performance—but featuring big open area in the aft cockpit for deck chairs, sports gear, picnic jumpers. Versatility in boating! ... Windshield, wheel, bow light, deck hardware, upholstered step-thru seat, stretch pockets, spray toy. *Optional:* Back-to-back seats, Convertible top.

**15' FROLIC (CSP-151G).** Entirely new, entirely different! Traveler's exciting Flite Deck makes boating really dry, and boating really easy! Its swift, winging appearance in the water (see cover photo) is the most distinctive thing in boating today. Lapbreak hull design. Completely equipped with lights, deck hardware, windshield, wheel, upholstered step-thru seat, stretch pockets. Self-bailing motor well, level double floor and luxury appointments throughout make this the prize fiber glass buy of the year! *Optional:* Convertible top.

**The “Wisconsin Scale Boating Association” always has a fantastic display of model boats at the show. This boat was built by Paul Simon:**

The ship is a 1:48 scale model of the USS Johnston, a WW2 era American destroyer. It is 8 feet long and weighs 50 pounds (20 pounds of that is ballast) when I put it in the water. The entire ship (aside from the electronics, paint, and some stiffeners etc) was 3D printed. Working off of pictures and 1:48 scale detailed blue prints I created all the parts in CAD using SolidWorks modeling software [~250 hours]. Then I printed the parts using my filament and resin 3D printers. Generally the machines run when I’m asleep or gone for the day but regardless it took about 350 hours of machine time to make all the parts. Finally another 200 hours to assemble and paint all the individual parts. There was some trial and error involved too as I wasn’t even sure the best way to build it. It took me about a year working off and on before I had something to put into the water that would run. The last six months I have been adding more details and correcting some mistakes. It’s almost done, it just needs lighting and some railings on the decks. Cost? \$600-700...just like “real” boats I’d almost prefer not to know.

Why this particular ship? I did not even know the story of the USS Johnston until another WSBA club member suggested it would be a good choice, and he was right. It was sunk in 1944 during the Battle of Leyte Gulf. I placed 186 crewmen on deck which looks a bit crowded but back then that’s generally how it was done. More importantly there is one figure for each person that died as a result of the ship sinking. The 141 survivors spent 50 hours in the water before they were rescued. It is truly a story of ordinary people doing heroic things. **By Paul Simon**

# MEMBER PROFILE - JOHN BAUMANN

## 1938 Chris Craft 15 1/2' Deluxe Runabout OWNER John Baumann

1938 was the first year that this model was built. Only 35 were made that year.

The production of this model stopped in 1941, and the total number of these boats that were made was 671. It has a model BA engine which had an aluminum head on the engine providing an additional 5 HP bringing it to 65 hp versus the model B with only 60 hp. This was my very first Chris Craft. She was found just outside of Minocqua, Wisconsin. It was purchased in Chicago, and shipped to Minocqua for use at the family's sum-

mer cottage. When found, the hull needed paint, the engine didn't run, the seats were shot, and the varnish needed a little freshening up, but she was a cute little thing. I put in new points, painted the hull, reupholstered the seats, and enjoyed her for the next 18 years on Okauchee Lake without a problem. For her 72d birthday, I decided to restore her, and rebuild her original engine. After a 2 year "vacation", she was ready for another 72 years of boating

Arrive and launch!

We have a scenic area dedicated to the Chapter this year.

A gravel launch ramp with one dock for us to display in the water. Food and amenities next door, shade provided with a 10'x20' canopy day of show. A great place for the kids to fish, skip stones, etc.

Request all attendees unhook their trailers and park vehicles in the surrounding area with abundant parking, boats on trailers will be backed into the circular display area. This location is only a few blocks from the major route to Door County, so we expect lots of drop-in spectators.
